

DHAKA, MAR 31: The Parliamentary Standing Committee on Power, Energy and Mineral Resources has asked the government to ensure the security of power plants and substations across the country by earmarking those as "Key Point Installations (KPIs)." The committee has also asked the government to take enough measures to protect the public properties from any aggression or sabotage.

In its 46th meeting at Sangsad Bhaban, the parliamentary watchdog has also suggested the government to enhance security of various KPIs across the country.
